Front-end Web Developer

Motivated and proficient Software developer specialized in frontend web development, driven by a passion for learning and applying more techniques in web development field. Has experience in developing creative website, using React.js and other technologies. Skilled in React.js, Typescript, Next.js HTML5, CSS, Sass, JS, OOP concepts, multi-threading. Experienced in working with agile methodologies and collaborating with cross-functional teams. having a keen eye for details and the ability to think outside the box when it comes to problem solving. I'm always eager to learn new technologies and stay up-to-date on the latest trends in the web development

EXPERIENCE

- **Frontend Developer at Quadratix**

- currently developing and maintaining complex web applications using React.js and other technologies.
- Collaborating with backend developers and designers to create user-friendly and responsive interfaces.
- Implementing best practices for code quality, performance, and accessibility.
- create interactive and user-friendly web applications for data visualization and analysis

Technologies used: React.js, Next.js, TypeScript, RTK, RTK Query, SCSS, antd, Tailwindcss, FramerMotion.

Period: started sep,2023

- **Mid-level Frontend Developer at Prosoft**

As a mid-level frontend developer, I have taken on responsibilities that include mentoring and managing a group of junior and intern developers. I report their performance to the tech lead and collaborate with them on more advanced tasks. Additionally, I participate in code reviews and refactoring to maintain clean and reusable code.

One of my key contributions to the team has been creating helper functions and utility classes that benefit the entire development team.

Technologies used: React.js, Next.js, TypeScript, SCSS, antd, Tailwindcss, Bootstrap.

Freelance.

- **Mid-level Frontend Developer at Sintac Code**

- developing and maintaining web applications.
- developing full applications with front and backend technologies.
- Implementing best practices for code quality, performance, and accessibility.

Technologies used: HTML, SCSS, JS, React, Laravel, PHP, MySQL

Period: One year

- **Freelancer**

- some of projects & Tasks I worked in are available in my **GitHub account:** <https://github.com/khaledmasry0>

SKILLS

- **Technical skills:** HTML, CSS, Sass, Pugjs
- **Programming Languages:** Javascript, Typescript, php
- **Frameworks:** React.js, Next.js, React Native
- **Tools & Libraries:** Git, Redux Toolkit, JQuery, Bootstrap, TailwindCSS & React styling libraries
- **Back-end Knowledge:** Laravel, MySQL, Node.js, express.js, MongoDB
- **Other Knowledge:** Angular, Vue.js, Gulp.js
- **Design:** adobe Photoshop, CoralDraw
- **Soft:** Teamwork, Planning, Hardworking

EDUCATION

Bachelor's Degree of Science, Cairo University (CU)

Graduation Year: 2021

Accumulated Grade: Good

LANGUAGES

- Arabic (Native Language)
- English (Conversational)

Personal Information:

- Military service: Exempted
- Birthdate: 1997-05-12

PROJECTS

• Organica Group

As part of my portfolio, I developed Organica Group, a captivating e-commerce platform specializing in the sale of beauty products and tools. The website is meticulously crafted with React.js to ensure a dynamic and responsive user interface. Leveraging advanced technologies like Redux Toolkit (RTK) and RTK Query, I implemented efficient state management and seamless API integration. The aesthetics and usability of Organica Group are further elevated through the use of CSS, JavaScript, and strategic incorporation of Ant Design (antd) and Bootstrap.

Explore Organica Group: <https://organica-group.com>

• Sarg tannery

I designed and developed Sarg Tannery, a sophisticated introductory website showcasing the offerings of Sarg Company in the leather industry. This platform serves as a comprehensive introduction to Sarg's premium leather products. The website incorporates a robust dashboard, providing seamless control over all content, enabling efficient content management.

Utilizing React.js as the foundation, I integrated a user-friendly interface with advanced technologies such as Redux Toolkit (RTK) and RTK Query for streamlined state management and API integration. The design aesthetics are enriched through the strategic use of CSS, JavaScript, Ant Design (antd), and Bootstrap.

• Lahfa

I developed Lahfa, an innovative e-commerce platform specializing in the furniture industry, using cutting-edge technologies to enhance the user experience. Leveraging React.js as the core framework, I employed Redux Toolkit (RTK) and RTK Query for efficient state management and seamless API integration. The user interface is crafted with a combination of CSS, JavaScript, Ant Design (antd), and Bootstrap, ensuring a responsive and visually appealing design.

• Tic Tac Toe Game

As a demonstration of my programming skills, I developed a classic Tic Tac Toe game using JavaScript. The game is designed with an interactive and user-friendly interface, providing an enjoyable experience for players. The project showcases my proficiency in JavaScript, highlighting my ability to create interactive and engaging web applications.

• Dynamic Text Editor

As one of the initial practical applications in my learning journey, I created a straightforward yet functional Text Editor web application. Powered by JavaScript, this project represents my early exploration and application of programming skills, showcasing a dynamic user interface for efficient text manipulation.
