Front-end Web Developer

A self-taught Front-end developer with a passion for creating powerful, functional websites and applications.
with a strong understanding of HTML, CSS, JavaScript, Reactjs and other web technologies.
I have a keen eye for details and the ability to think outside the box when it comes to problem solving.
I'm always eager to learn new technologies and stay up-to-date on the latest trends in the web development

EXPERIENCE

I'm full of passion for Front-end development and have about 1 year of experience in building projects of different functionality such as e-commerce, static and dynamic websites and besides this, I worked as Freelancer.
-most of my projects are available in my **GitHub account**: ***https://github.com/khaledmasry0***

PROJECTS:

● **ElMasry-Commerce**

an e-commerce website that you can buy products, I take most of the ideas from amazon website and that helps me a lot to make this project more functionality, it has authentication, e-pay and more features

Technologies: React & ReduxToolkit, Swiperjs, Firebase(Auth, CloudFireStore), Stripe.js, React toastify

Demo: https://am-commerce.web.app/

● **eShop**

an e-commerce website that you can buy products, Adding to cart or favorite, Filter products by category, Sale. with very good design

Technologies: React, Swiperjs, bootstrab, aos
