Senior Front-end Developer

A Senior Frontend Developer with over 5 years of experience building fast, scalable, and user-centered web applications. Skilled in React.js, React Native, TypeScript, and performance optimization, with a solid understanding of frontend architecture and micro frontend principles.

I enjoy turning complex ideas into clean, intuitive interfaces and delivering products that combine performance, usability, and security. Having worked across industries like AI platforms, e-commerce, and defense technology, I bring both technical depth and practical problem-solving to every project.

Experience

Frontend Developer at AlasilaCX — March, 2025 – Present

Full-time | On site | Cairo, Egypt

- Leading frontend development for Edafi, an on-demand workforce platform similar to Instawork.
- Developing and maintaining two React Native mobile applications: Edafi busseniss & Edafi seekers
- Building and maintaining the Edafi web application.
- Developing a React Native mobile app, connecting businesses with on-demand physical service workers.
- Playing a key role in developing the CRM web application, improving client management and internal workflow automation.
- Designed scalable frontend architecture with clean separation of concerns.
- Applied micro frontend principles to modularize features, enabling independent development and deployment of core app components.

Frontend Developer at Codeyai — Sep, 2024 - March, 2025

Part-time | Remote | New York, USA

- Played a pivotal role in developing CodeyAI, an AI-powered platform that revolutionizes software development by converting intelligent diagrams into fully functional project code.
- Designed and implemented intuitive user interfaces for creating and managing diagram-based programming workflows.
- Integrated AI-powered features, including diagrammatic architecture design, automated code generation, and GPT-style chat functionality for collaborative programming assistance.
- Enhanced usability, improving user productivity by 30% through seamless project metadata, supporting frameworks like Java Maven and Spring Boot.
- Try Codeyai: <https://www.codeyai.com> (Desktop view)

Frontend Developer at Quadratix — Dec, 2022 - Jan, 2025

Full-time | Hybrid | Cairo, Egypt

- Contributed to the development of a situation awareness application for a military training center, focusing on secure and user-friendly interfaces.
- Designed and implemented user-friendly interfaces to handle real-time data updates, ensuring accurate and timely information delivery.
- Collaborated with cross-functional teams to integrate frontend solutions with complex hardware, software, and communication systems.
- Maintained a focus on performance, usability, and security while adhering to strict confidentiality requirements.

Frontend Developer at Prosoft — Oct, 2021 - Oct, 2022

Full-time | Remote | Saudi Arabia

- Led the UI team in designing and implementing user interfaces for various e-commerce, ERP, and informational applications, ensuring consistent and high-quality results.
- Integrated APIs with frontend components, facilitating seamless interaction between the UI and backend systems.
- Collaborated with backend teams to ensure efficient data flow and API integration across multiple projects.
- Focused on delivering performance-optimized, responsive designs tailored to client requirements.
- Mentored junior team members and conducted code reviews to uphold development standards.

Frontend Developer at Sintac Code — July, 2021 - Jan, 2022

Part-time | Hybrid | Giza, Egypt

- Took ownership of developing and maintaining web applications, ensuring scalability and responsiveness.
- Designed and implemented full-stack solutions, integrating frontend interfaces with backend systems to deliver complete applications.
- Led code optimization efforts, boosting application performance and user experience

Skills

- **Frontend Development:** JavaScript, TypeScript, React.js, React Native, Next.js, CSS, HTML
- **State Management:** Redux, useContext, Zustand
- **Styling Frameworks:** Tailwind CSS, Ant Design, MUI, ShadeCN, SASS, Bootstrap, Framer Motion & Different styling Libraries
- **APIs & Integrations:** RESTful APIs, Axios, RTK Query
- **Version Control:** Git, GitHub, GitLab, Azure
- **Extra Knowledge:** Angular, Node.js, PHP, Laravel, MySQL
- **Design:** Figma, adobe Photoshop, CoralDraw, Canva
- **Soft skills:** Teamwork, Planning, Hardworking, Commitment, client collaboration, brainstorming, concept development

Education

- Bachelor's Degree of Science, Cairo University (CU)
Graduation Year: 2021
Accumulated Grade: Good
- **Information Technology Institute (ITI)**
Fullstack Development
- **ALX - Africa Program**
Software Engineering

LANGUAGES

- Arabic (Native Language)
- English (Conversational)

Personal Information:

- Military service: Exempted
- Birthdate: 1997-05-12
